Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14, 18-31, and 35-37, drawn to managing a distributed data processing system.
- II. Claims 15-17, 32-34, and 38-40, drawn to distributing software.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as the distribution of games or movies. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I contains classification 713/168, which is not required for Group II and the search required for Group II contains classification 717/172, which is not required for Group I, restriction for examination purposes as indicated is proper.
